# Risk, Audit , and Assessment Management

Proactively conduct risk assessments and audits that identify, assess, and manage risk in your organization. Easily integrate, customize and scale the solution to address the needs for your organization, large and small. Monitor results in real-time through powerful dashboards that help you prioritize, mitigate, and manage compliance, assessments, and risk.

With the **TotalCompliance™ Risk, Audit, and Assessment Manager,** you will be able to:

- Get a real-time understanding of organizational risk.
- Receive feedback and critical information from the grass roots individuals within an organization.
- View risk at a global organization level, by department, location, team, or individual.
- Manage and mitigate risk with greater clarity.
